

Volunteer Families Needed

Our Mentor Family Program continues to be a success with your help. The pairing of new students with returning students makes the transition to our school much easier. Every year we hear many good things from the new families as well as the mentor families. We will be carrying on the tradition with the upcoming 2020-2021 school year.

The purpose of Mentor Families is to be paired with a new family and offer help, support and encouragement as they enter our school and throughout the school year. We hope to foster better communication among the school and families as well as promote a close, Christian atmosphere to all families, returning or new. Mentor Families will be contacted by phone over the summer and given the name of their new family. They will then contact their new family, introduce themselves, and invite them to attend the New Parent Orientation Meeting. You, as a mentor family, are urged to attend the meeting as well to meet with your new family face to face. All children of the new family and Mentor Family are encouraged to attend. There will be activities for the children during the meeting. This meeting will take place on Xxxx, August XXth at 6:30pm in the hall.

The mentor family would be the one the new family would contact if any questions arise and you, as a mentor family would do your best to answer the question or find out the answer for them if you aren't sure.

Please give serious consideration to helping the school out in this way. If you are interested, return the bottom of this form to the office. If you have any questions please call XXXX XXx

Yes! My family is interested in being a Mentor Family.
